HOW TO OPEN THE DOORS OF  
MY CONTEMPORARIES' HOMES  
TO THE FUTURE.*

MASSIMO LUCA

## VISUAL & KNOW HOW

## VISUAL & KNOW HOW

# ADL

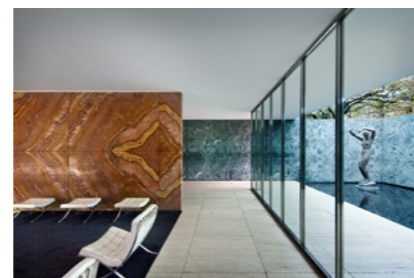

Nel 2004 il designer Massimo Luca da vita al progetto ADL con l'obiettivo di creare prodotti carichi di tecnologia che rappresentino una funzione architettonica all'interno delle abitazioni. La sua esperienza nel campo del design unita al suo pensiero, che guarda al futuro, hanno determinato l'orientamento dell'azienda. ADL punta a realizzare delle porte che non siano un semplice oggetto d'arredamento, ma che completino l'ambiente diventando parte di esso.

Le porte ADL si vogliono contraddistinguere trasformandosi in aperture che non dividono gli spazi, ma che li suddividono e li uniscono al tempo stesso, andando a creare quelli che Ludwig Mies van der Rohe ha definito degli "spazi fluenti".

*In 2004, designer Massimo Luca conceived the ADL project, with the aim of creating technologically advanced products that are also interior architectural elements. His experience in the field of design, combined with his way of thinking, which looks towards the future, determined the direction of the company. ADL focuses on creating doors that are not simply furnishing items, but which complete a room by becoming part of it.*

*ADL doors stand out because they transform into doorways that subdivide rather than divide spaces, at the same time connecting them, creating what Ludwig Mies van der Rohe defined as "flowing spaces".*

Barcelona Pavilion 1929

MASSIMO LUCA

Dopo gli studi tecnici e urbanistici allo IUAV inizia a lavorare in una azienda leader nella produzione di mobili per la casa e l'ufficio. Successivamente entra in contatto con studi di progettazione e designer importanti, iniziando così la sua esperienza nel mondo dell'arredo. "Quando frequentavo lo studio di Milano G14, parlavo con Pierino dei nostri studi di architettura, il neo dipendente dello studio che poi è diventato il famoso designer Piero Lissoni". Sono seguiti 20 anni di progettazione tecnica, di ricerca e sviluppo di progetti, nei quali la sua conoscenza si è formata e consolidata. Dopo l'esperienza in azienda ha iniziato a proporsi come designer e tecnico progettista, collaborando con aziende sempre rivolte al mondo dell'arredo, come Boffi e Poliform, spaziando dal mondo della cucina, dei complementi d'arredo, di prodotti in alluminio con contenuto tecnologico, e con designer affermati come Carlo Colombo, Karim Rashid, Ross Lovegrove. Alcuni suoi prodotti sono stati utilizzati in edifici progettati da Armani Casa, Antonio Citterio, Renzo Piano. L'esperienza ha portato Massimo Luca ad approfondire la conoscenza dei materiali e in modo particolare dell'alluminio che nelle sue mani riesce a soddisfare contemporaneamente esigenze tecniche e di design.

MASSIMO LUCA

*After completing his technical and urban design studies at the IUAV, he went to work for a leading home and office furnishings manufacturer. He subsequently came into contact with major design firms and designers, thereby launching his career in the world of furnishings. "When I visited the offices of G14 in Milan, I often spoke to Pierino about our architecture studies. At the time Pierino was the architecture firm's new employee; he is now the famous designer Piero Lissoni." Twenty years of engineering design, research and project development followed, during which time he developed and expanded his knowledge. After his experience within the company, he began to promote himself as a designer and design engineer, collaborating with other companies in the furniture and furnishings business, such as Boffi and Poliform, and in various sectors ranging from kitchens and furnishing accessories to technological aluminium products, with established designers such as Carlo Colombo, Karim Rashid and Ross Lovegrove. Several of his products have been used in buildings designed by Armani Casa, Antonio Citterio and Renzo Piano. This experience led Massimo Luca to deepen his knowledge of materials and in particular aluminium, which he skillfully uses to simultaneously meet both technical and design needs.*

## TECNOLOGIA & DESIGN

## TECHNOLOGY & DESIGN

# ADL

ADL è la forma estetica che deriva dalla funzione, è l'unione di tecnologia e design, di funzionalità ed estetica.

Le porte ADL sono pura tecnologia, a partire dai dispositivi fino ad arrivare ai materiali. Ogni particolare costruttivo è pensato e ideato per raggiungere obiettivi sempre più alti con prodotti innovativi.

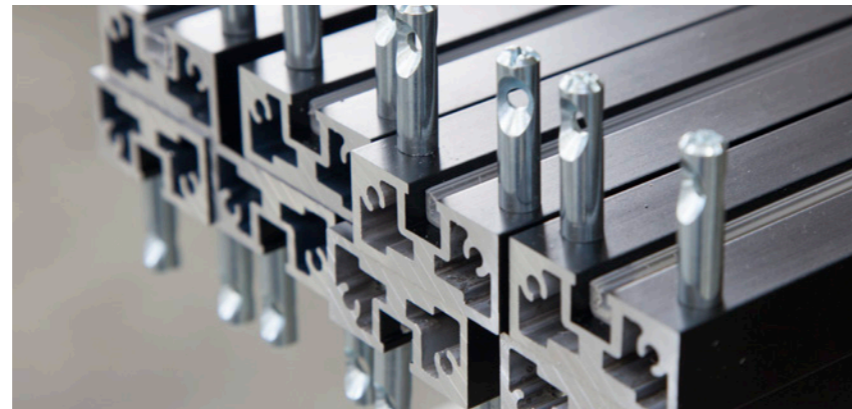

Tutto è studiato per creare la miglior porta e niente è lasciato al caso, lo scorrimento delle ante diventa sempre più fluido, il rumore del carrello sui binari sempre più silenzioso, e le varie aperture sempre più pratiche. Il vetro e l'alluminio, materiali altamente tecnologici ed innovativi, rappresentano le materie prime utilizzate da ADL per i propri prodotti.

Il telaio realizzato interamente in alluminio risulta leggero, ma al tempo stesso solido e duraturo nel tempo; esso conferisce alla porta un aspetto tecnico che si lega in maniera perfetta con la lastra di vetro, la quale aiuta ad isolare suoni ed odori, e in base alla finitura scelta permette di regolare la luminosità dell'ambiente.

L'azienda è in continua ricerca e sperimentazione nell'ambito del design e presenta un'alta capacità di personalizzazione. Ogni forma, materiale, finitura e colore, viene pensato ed utilizzato per realizzare un progetto preciso, nel quale il design non prevale sulla tecnologia ma si unisce ad essa coesistendo all'interno del prodotto ADL.

*ADL is the aesthetic form that arises from the function of the product; it is the union between technology and design, between functionality and aesthetics.*

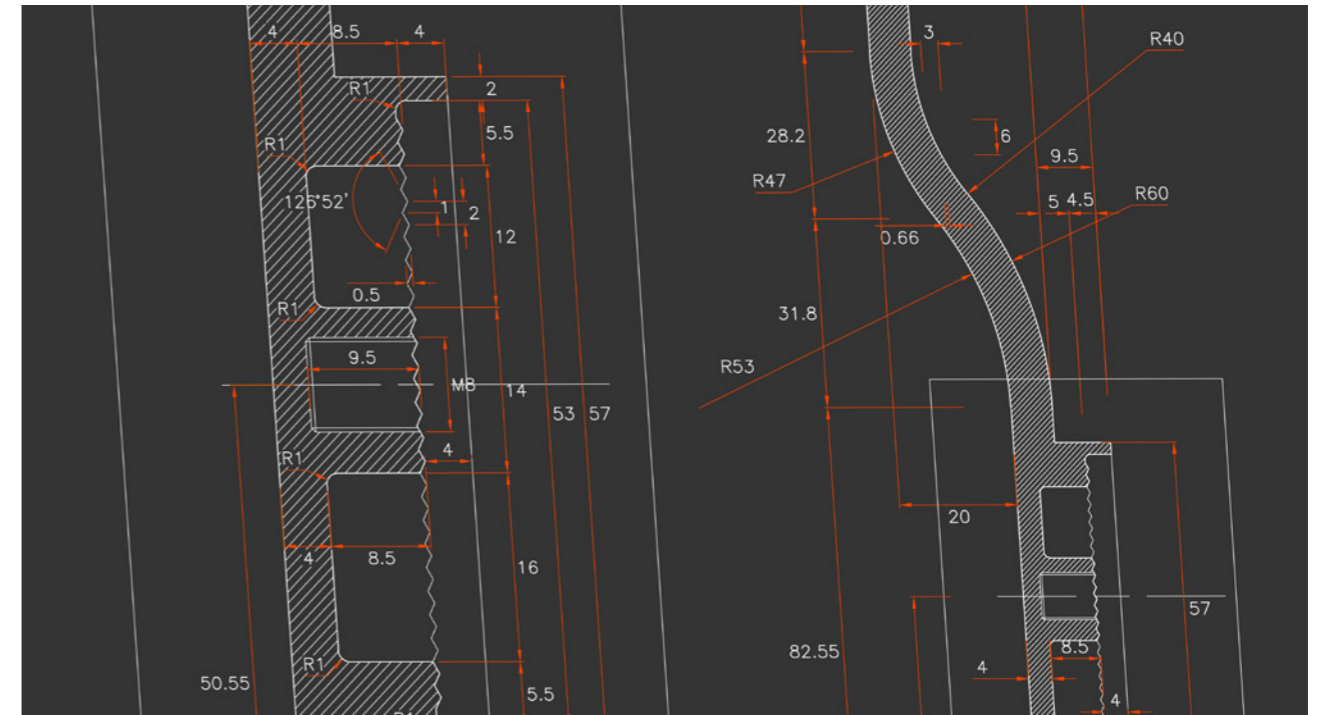

*ADL doors are pure technology, starting with the devices and going right through to the materials. Each single construction detail is*

*conceived and designed to reach increasingly higher objective levels, with innovative products. Everything is designed to create the best possible door, and nothing is left to chance: the sliding doors become increasingly smoother; the noise of the carriage on the tracks becomes increasingly quieter; and the various ways to open them become increasingly more practical.*

*Glass and aluminium, high-tech and innovative materials, are the primary materials that ADL uses for its products.*

*A frame made entirely of aluminium is light, but at the same time it is sturdy and long-lasting. It gives the door a technical aspect that blends perfectly with the glass pane, helping it to isolate sounds and smells. Depending on the chosen finish, it allows you to adjust the level of light in the room. The company continues its design research and experimentation, and is highly skilled in customisation. Each form, material, finish and colour is designed and used for each specific project. Where design does not prevail over technology; it joins it, so that they can coexist within the ADL product.*

## AFFIDABILITÀ & GARANZIA

## RELIABILTY & GUARANTEE

I profili estrusi di alluminio sono sempre dimensionati abbondando negli spessori per garantire la massima resistenza e durata nel tempo. Le ante, anche se di grandi dimensioni, scorrono silenziosamente e sicure, sostenute dai carrelli dotati di cuscinetti di grande portata. Il dispositivo auto frenante e il particolare antibandieramento infondono ulteriore sicurezza e affidabilità. Le molteplici regolazioni e tolleranze dimensionali permettono facilità di installazione in ogni ambiente.

Ogni dettaglio costruttivo (cerniere, supporti serrature, distanziatori prodotti in pressofusione) è attentamente studiato per rendere il prodotto finale sicuro e affidabile.

I continui test effettuati sui prodotti ADL, confermano il mantenimento della perfetta funzionalità delle porte e dei componenti impiegati, ad esempio il peek per la rotazione delle porte battenti che non si usura nel tempo.

Anche i vetri utilizzati offrono sicurezza e garanzia, in quanto temperati e/o stratificati, e certificati dalle aziende produttrici.

*The extra thickness of the aluminium extrusion profiles ensures maximum strength and durability. The doors slide silently and safely, even if they are large, supported by carriages with high load capacity bearings. The self-braking devices and the unique skid control device offer additional safety and reliability. The multiple available adjustments and size tolerances permit easy installation in any kind of environment.*

*Each single construction detail (hinges, locks, die cast spacers) is carefully designed to ensure that the final product is safe and reliable.*

*The continuous tests carried out on ADL products confirm that the doors and components used, continue to function perfectly over time; for example, the peak torque of the door hinges doesn't decrease over time. The glass, which is tempered and/or laminated, also guarantees safety and is certified by the individual manufacturers.*

## AMBIENTE & SOSTENIBILITÀ

## ENVIRONMENT & SUSTAINABILITY

ADL

ADL ha un occhio di riguardo per le tematiche ambientali, e si propone industrialmente di ottenere il minor impatto sulla natura.

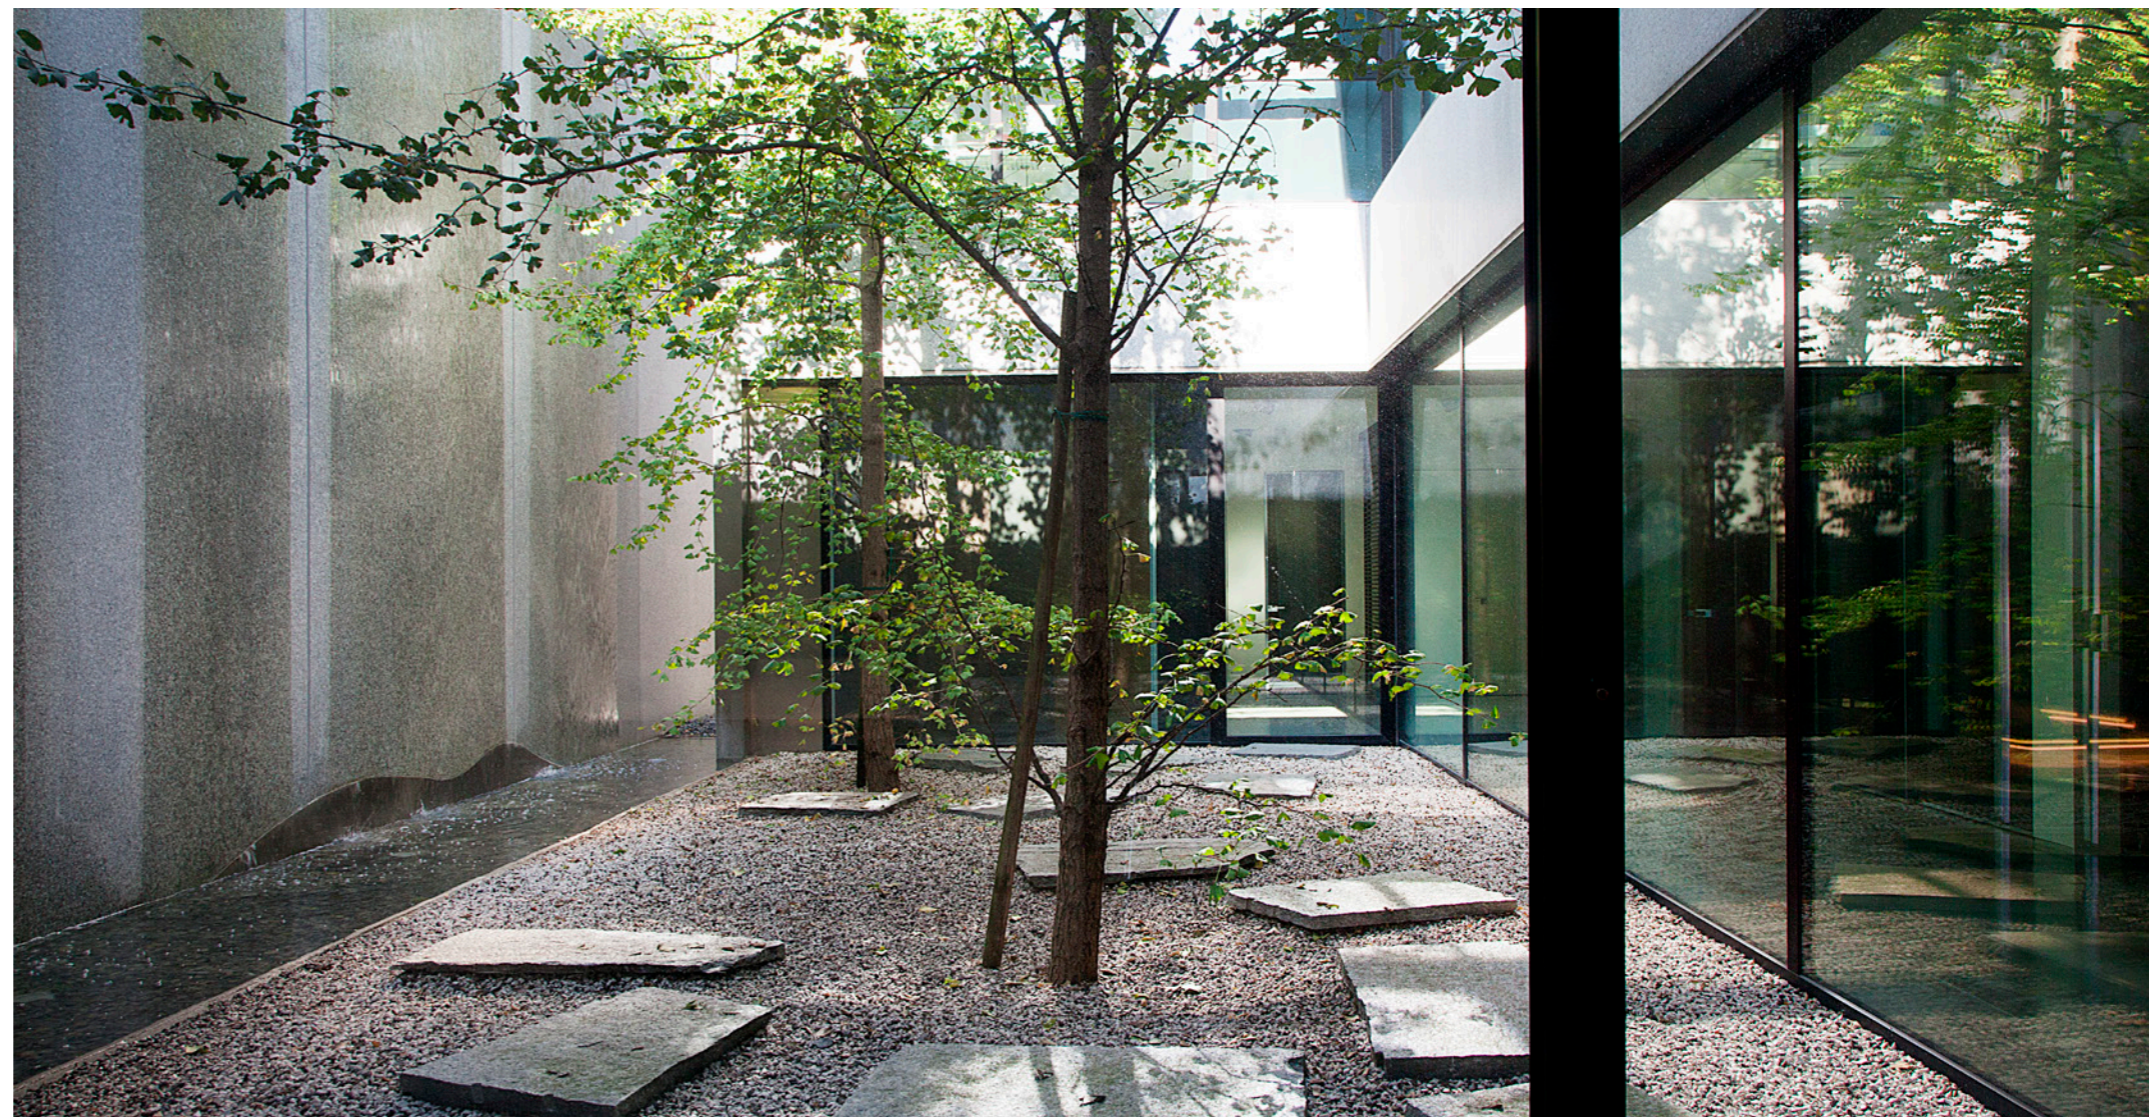

L'azienda progetta e realizza dei prodotti riciclabili che garantiscono massima durata e affidabilità nel tempo. Le fasi di produzione vengono svolte totalmente all'interno dell'azienda, assicurandosi così che ogni porta sia composta da elementi facilmente separabili tra loro al momento dello smaltimento. L'attenzione all'ecosostenibilità non si ferma alle procedure di lavorazione, ma raggiunge anche la scelta delle materie prime: principalmente il vetro e l'alluminio che sono materiali riciclabili al 100%.

ADL è inoltre dotata di un impianto fotovoltaico per la produzione del proprio fabbisogno energetico.

*ADL pays particular attention to environmental issues, and does everything it can to ensure that its industrial activities have as little impact on nature as possible.*

*The company designs and manufactures recyclable products that guarantee maximum durability and reliability over time. All the production stages are carried out entirely within the company, thereby ensuring that each single door is composed of elements that can be easily separated at the time of disposal. The company's focus on sustainability is not limited to their manufacturing procedures; it also plays an important role in the choice of primary materials: mainly 100% recyclable glass and aluminium.*

*ADL is also equipped with a photovoltaic system to meet all of its energy needs.*

# PIANA

Piana è il sistema di aperture caratterizzato da due vetri che racchiudono tra loro il telaio di alluminio, visibile o meno a seconda della finitura scelta per le lastre di vetro. Questo particolare costruttivo conferisce alla porta un senso di planarità, rendendola visibilmente un corpo unico, adatto agli ambienti più ricercati.

*The Piana is a door opening system characterised by two glass panes that enclose the aluminium frame; depending on the finish chosen for the glass, it can be either visible or not. This particular construction gives the door a sense of flatness, making it visibly a single piece, suitable for more elegant environments.*

CON COPRIFILO IN VETRO  
WITH GLASS CABLE COVERS

Piana scorrevole delimita ambienti diversi integrandosi completamente con le superfici murarie grazie alla sua planarità. Le ante scorrono sul muro o su se stesse mantenendo una superficie lineare e regolare.

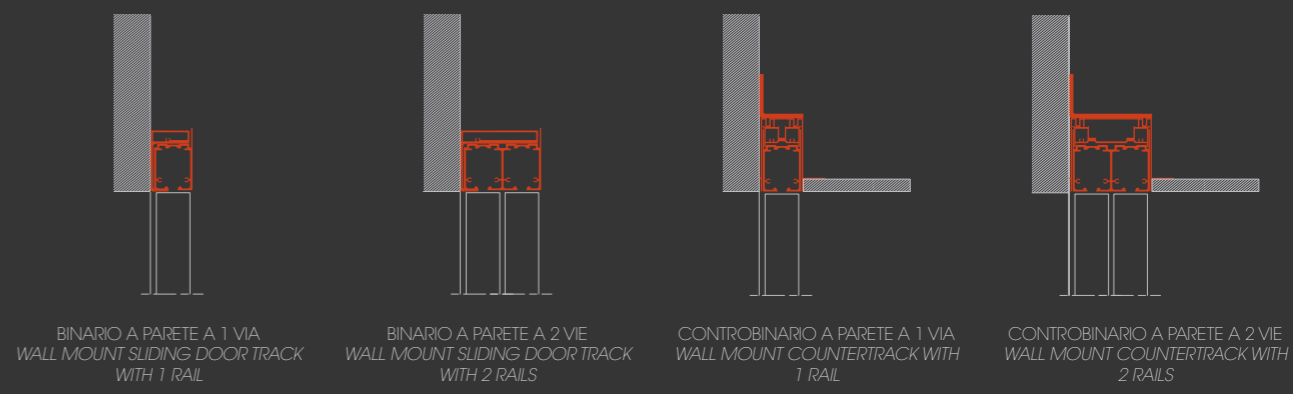

*The Piana sliding door delimits different environments by completely blending into the wall surfaces thanks to its flatness. The doors slide over the wall and over each other, maintaining a linear and even surface.*

**BINARIO A SOFFITTO - CEILING MOUNT SLIDING DOOR TRACK**

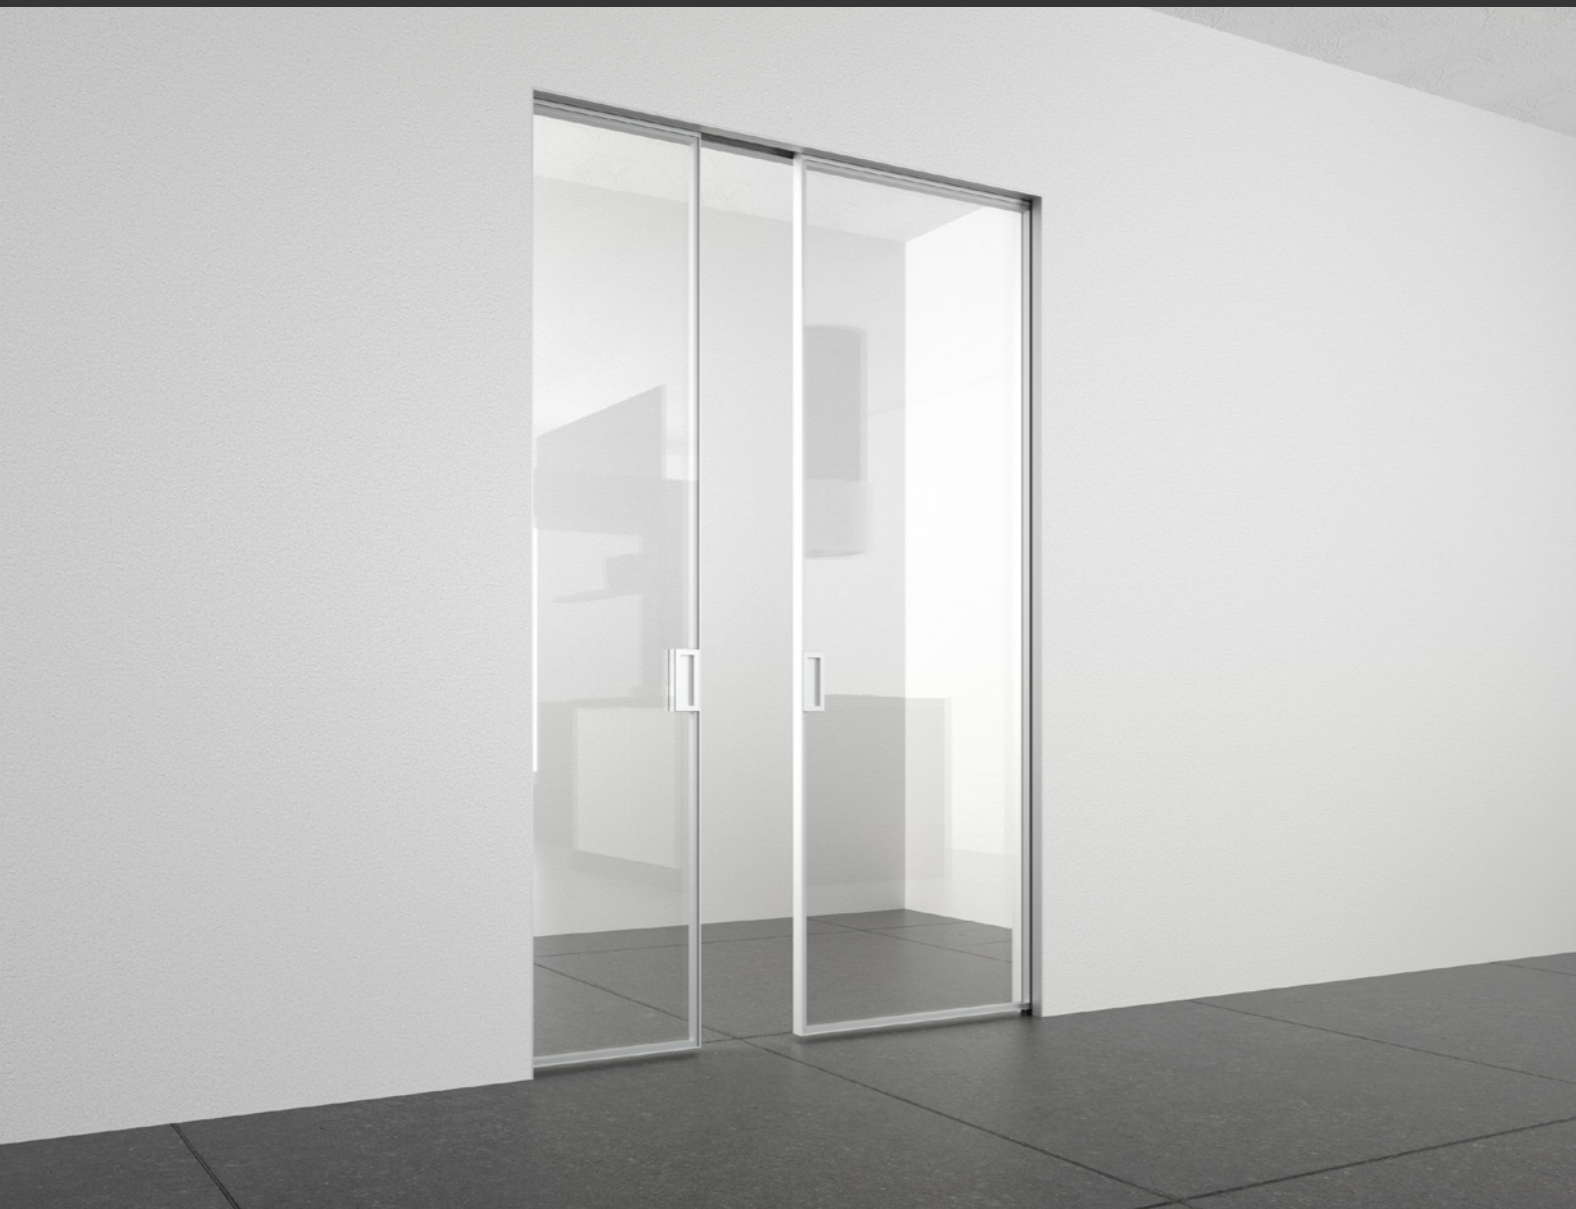

**BINARIO A PARETE - WALL MOUNT SLIDING DOOR TRACK**

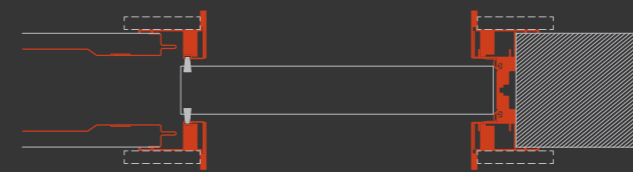

Le ante di Piana scorrono all'interno del muro in modo lineare. Grazie alla particolare struttura non si presentano vuoti tra il telaio e il muro, ma si determina un effetto di assoluta coerenza tra l'essenzialità delle superfici architettoniche e il prodotto.

*The Piana doors slide straight inside the wall. Thanks to its unique structure there are no gaps between the frame and the wall, but the effect is one of complete unison between the essentiality of the architectural surfaces and the product.*

STIPITI CON COPRIFILI - DOOR JAMBS WITH CABLE COVERS

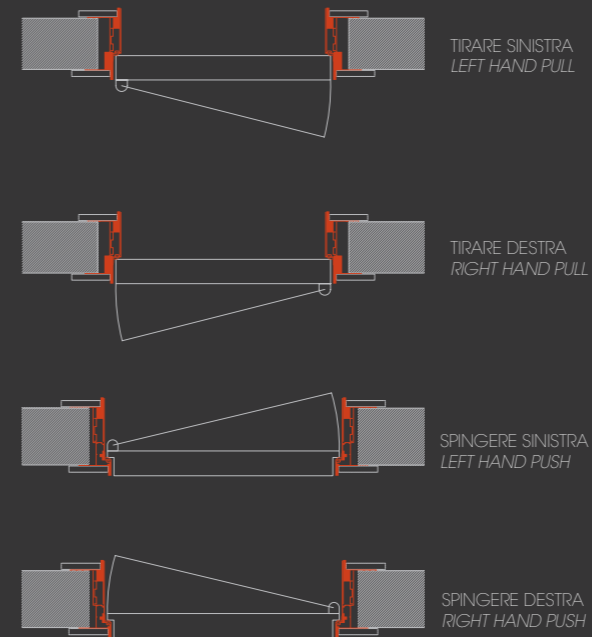

soluzioni possibili - possible solutions

Piana battente evidenzia maggiormente la monoliticità della sua struttura. La porta da chiusa è planare al muro, ed una volta aperta sembra quasi sia esso ad aprirsi, soprattutto se la scelta della finitura dei vetri è un tono su tono con la parete.

*The Piana swing door emphasises the monolithic nature of its structure. The closed door is completely in line with the wall, and once opened it almost seems as if it has opened itself, especially if the chosen finish for the glass is the same colour as the wall.*

**Piana scorrevole 4 ante**  
\_Binario a 2 vie incassato nel soffitto  
\_Telaio in alluminio laccato bianco (RAL 9010)  
\_Anta doppia lastra di vetro reflex chiaro (D2-94)

**Piana four-leaf sliding door**  
\_2-rail recessed ceiling track  
\_White painted aluminium frame (RAL 9010)  
\_Double clear reflex glass door (D2-94)

p.14

**Piana scorrevole 2 ante**  
\_Binario a 1 via a parete incassato nel soffitto  
\_Telaio in alluminio anodizzato bronzo  
\_Anta doppia lastra di vetro bronzo (D1-17)

**Piana two-leaf sliding door**  
\_1-rail recessed ceiling track  
\_Bronze anodised aluminium frame  
\_Double bronze glass door (D1-17)

p.16

**Piana scorrevole con fascia 2 ante**  
\_Binario a 2 vie a soffitto  
\_Telaio in alluminio anodizzato naturale  
\_Anta in vetro lucido retroverniciato grigio quarzo (D3-43)  
\_Fascia centrale in pietra lavagna

**Piana two-leaf sliding door with fascia**  
\_2-rail ceiling mount track  
\_Natural anodised aluminium frame  
\_Crystal clear glass leaf door backpainted in Quartz Grey (D3-43)  
\_Central fascia in slate

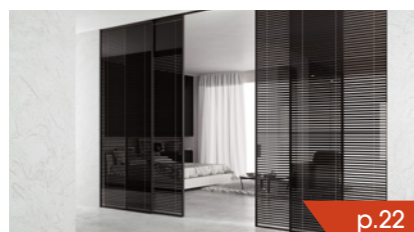

p.18

**Piana scorrevole con fascia 4 ante**  
\_Binario a 2 vie incassato nel soffitto  
\_Telaio in alluminio anodizzato nero (RAL 9011)  
\_Anta in vetro neutro (D-10)  
\_Fascia centrale in gres porcellanato oxide bianco

**Piana four-leaf sliding door with fascia**  
\_2-rail recessed ceiling track  
\_Black anodised aluminium frame (RAL 9011)  
\_Neutral glass door (D-10)  
\_Central fascia in White fine porcelain stoneware

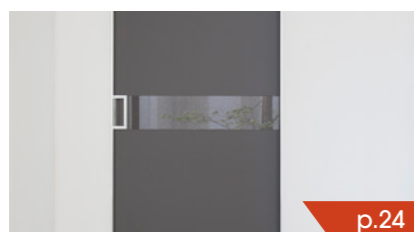

p.20

**Piana scorrevole con veneziana 4 ante**  
\_Binario a 2 vie incassato nel soffitto  
\_Telaio in alluminio anodizzato bronzo  
\_Anta in vetro neutro (D1-10)  
\_Tapparella laccata nero grafite (RAL 9011)

**Piana four-leaf Venetian sliding door**  
\_2-rail recessed ceiling track  
\_Bronze anodised aluminium frame  
\_Neutral glass door (D1-10)  
\_Lacquered Black Graphite slats (RAL 9011)

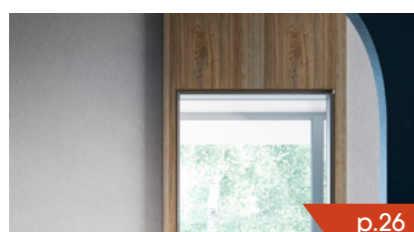

p.22

**Piana internomuro con fascia**  
\_Stipiti alluminio naturale con cartongesso  
\_Telaio in alluminio anodizzato naturale  
\_Anta in vetro satinato retro verniciato grigio quarzo (D4-43S)  
\_Fascia centrale in vetro lucido retro verniciato grigio quarzo (D3-43)

**Piana pocket door with fascia**  
\_Natural aluminium door jambs with plasterboard  
\_Natural anodised aluminium frame  
\_Satin glass leaf door backpainted in Quartz Grey (D4-43S)  
\_Central crystal clear glass fascia backpainted in Quartz Grey (D3-43)

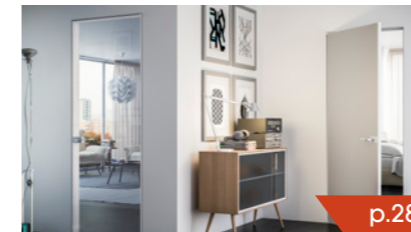

p.24

**Piana battente**  
\_Stipiti in alluminio laccati beige perlato (RAL 1035) con coprifili e pannello sopra porta in legno noce americano  
\_Telaio in alluminio laccato beige perlato (RAL 1035)  
\_Anta vetro reflex chiaro (D2-94)  
\_Maniglia ADL laccata beige perlato (RAL 1035) con inserto in legno noce americano

**Piana swing door**  
\_Lacquered aluminium door jambs in Pearl Beige (RAL 1035) with cable covers and panel over the door in American Walnut  
\_Pearl Beige (RAL 1035) painted aluminium frame  
\_Clear reflection glass door (D2-94)  
\_ADL lacquered Pearl Beige (RAL 1035) handle with American Walnut insert

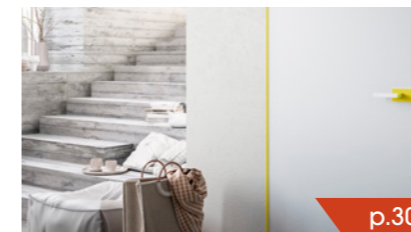

p.26

**Piana battente**  
\_Stipiti raso in alluminio laccato bianco (RAL 9010)  
\_Telaio in alluminio laccato bianco (RAL 9010)  
\_Anta sinistra vetro neutro extrachiaro (D2-20), anta destra vetro satinato retro verniciato bianco neve (D3-41)  
\_Maniglia Zelda in finitura cromo satinato

**Piana swing door**  
\_White painted aluminium flush door jambs (RAL 9010)  
\_White painted aluminium frame (RAL 9010)  
\_Left door leaf in extra-clear neutral glass (D2-20), right door leaf in crystal clear glass, backpainted in Snow White (D3-41)  
\_Zelda handle with satin chrome finish

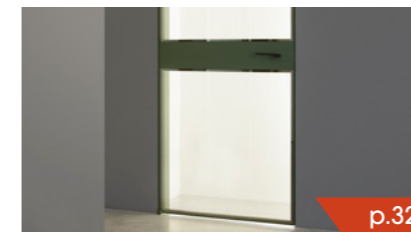

p.28

**Piana battente**  
\_Stipiti raso in alluminio laccato giallo (RAL 1026)  
\_Telaio in alluminio laccato giallo (RAL 1026)  
\_Anta vetro satinato retro verniciato bianco neve (D4-42S)  
\_Maniglia Elle in finitura cromo satinato

**Piana swing door**  
\_Yellow painted aluminium flush door jambs (RAL 1026)  
\_Yellow painted aluminium frame (RAL 1026)  
\_Satin glass door, backpainted in Snow White (D4-42S)  
\_Elle handle with satin chrome finish

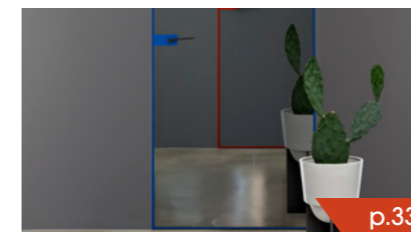

p.30

**Piana battente con fascia**  
\_Stipiti con coprifili in alluminio laccato verde oliva (RAL 6003) con applicato cartongesso.  
\_Telaio in alluminio laccato verde oliva (RAL 6003)  
\_Anta vetro reflex fumè (D2-92)  
\_Fascia centrale laccata verde oliva (RAL 6003)  
\_Maniglia Zelda laccata nero opaco

**Piana swing door with fascia**  
\_Olive Green painted (RAL 6003) aluminium flush door jambs  
\_Olive Green painted (RAL 6003) aluminium frame  
\_Neutral extra-clear glass door  
\_Lacquered Olive Green central fascia (RAL 6003)  
\_Zelda matte black lacquered handle

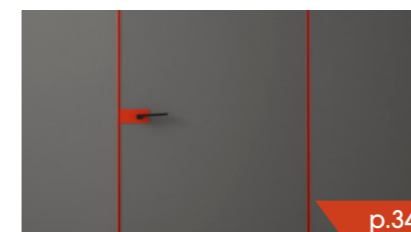

p.32

**Piana battente**  
\_Stipiti con coprifili in alluminio laccato blu (RAL 5017) traffico con applicato cartongesso.  
\_Telaio in alluminio laccato blu traffico (RAL 5017)  
\_Anta vetro reflex fumè (D2-92)  
\_Maniglia Zelda laccata nero opaco

**Piana swing door**  
\_Traffic Blue painted (RAL 5017) aluminium flush door jambs  
\_Traffic Blue Painted (RAL 5017) aluminium frame  
\_Smoky reflection glass door (D2-92)  
\_Zelda matte black lacquered handle

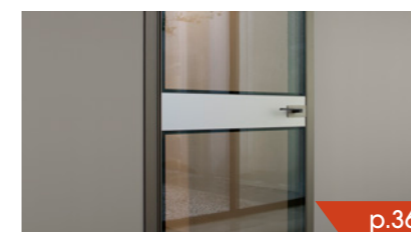

p.33

**Piana battente**  
\_Stipiti con coprifili in alluminio laccato rosso (RAL 3024) con applicato cartongesso.  
\_Telaio in alluminio laccato rosso (RAL 3024)  
\_Anta vetro satinato retro verniciato grigio quarzo (D4-43S)  
\_Maniglia Zelda laccata nero opaco

**Piana swing door**  
\_Red painted (RAL 3024) aluminium flush door jambs  
\_Red painted (RAL 3024) aluminium frame  
\_Quartz Grey satin glass door  
\_Zelda matte black lacquered handle

p.34

**Piana battente con fascia**  
\_Stipiti con coprifili in alluminio anodizzato bronzo  
\_Telaio in alluminio anodizzato bronzo  
\_Anta vetro bronzo (D1-17)  
\_Fascia centrale in specchio bronzo acidato (D5-55)  
\_Maniglia Zelda laccata nero opaco

**Piana hinged door with fascia**  
\_Door jambs with cable covers in Bronze anodised aluminium  
\_Bronze anodised aluminium frame  
\_Bronze glass door (D1-17)  
\_Central fascia in bronze acidated mirror (D5-55)  
\_Zelda matte black lacquered handle

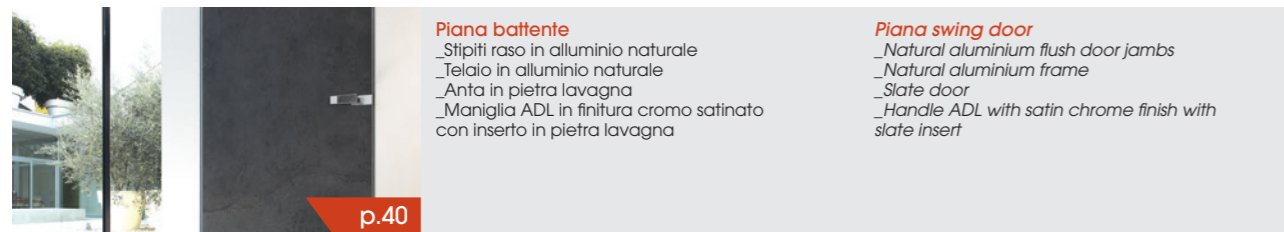

p.36

**Piana battente**  
\_Stipiti in alluminio naturale con coprifili in vetro lucido retro verniciato grigio quarzo (D3-43)  
\_Telaio in alluminio naturale  
\_Anta in vetro lucido retro verniciato grigio quarzo (D3-43)  
\_Maniglia ADL in finitura cromo satinato con inserto in finitura come anta

**Piana swing door**  
\_Natural aluminium door jambs with cable covers in crystal clear glass, backpainted in Quartz Grey (D3-43)  
\_Natural aluminium frame  
\_Crystal clear glass leaf door backpainted in Quartz Grey (D3-43)  
\_Handle ADL with satin chrome finish with insert in the same finish as the door

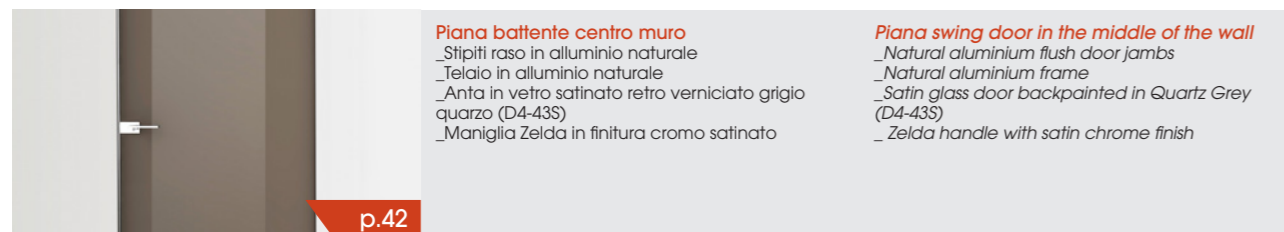

p.38

**Piana battente**  
\_Stipiti raso in alluminio naturale  
\_Telaio in alluminio naturale  
\_Anta in pietra lavagna  
\_Maniglia ADL in finitura cromo satinato con inserto in pietra lavagna

**Piana swing door**  
\_Natural aluminium flush door jambs  
\_Natural aluminium frame  
\_Slate door  
\_Handle ADL with satin chrome finish with slate insert

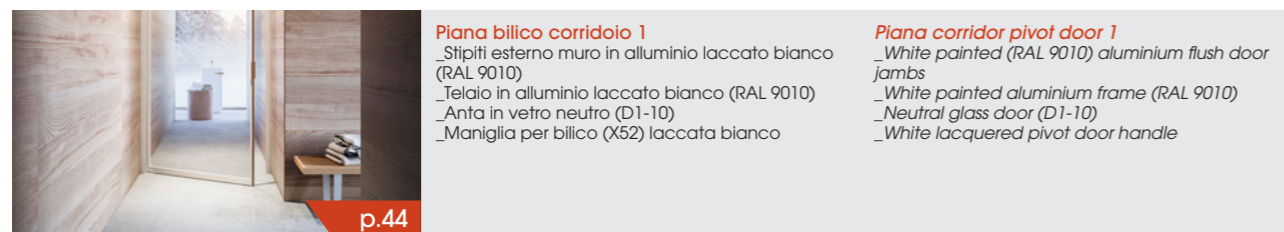

p.40

**Piana battente centro muro**  
\_Stipiti raso in alluminio naturale  
\_Telaio in alluminio naturale  
\_Anta in vetro satinato retro verniciato grigio quarzo (D4-43S)  
\_Maniglia Zelda in finitura cromo satinato

**Piana swing door in the middle of the wall**  
\_Natural aluminium flush door jambs  
\_Natural aluminium frame  
\_Satin glass door backpainted in Quartz Grey (D4-43S)  
\_Zelda handle with satin chrome finish

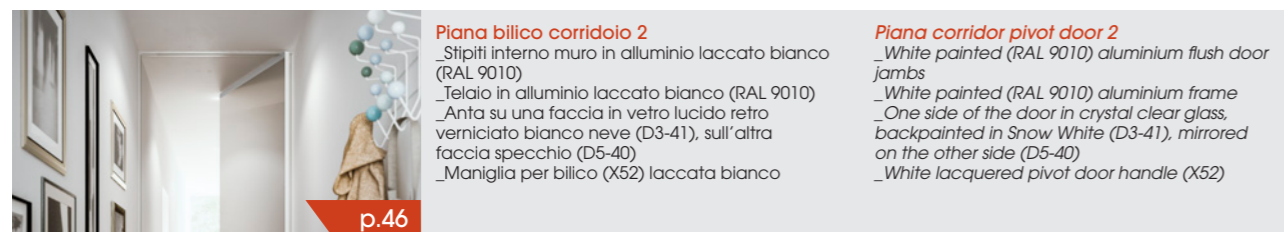

p.42

**Piana bilico corridoio 1**  
\_Stipiti esterno muro in alluminio laccato bianco (RAL 9010)  
\_Telaio in alluminio laccato bianco (RAL 9010)  
\_Anta in vetro neutro (D1-10)  
\_Maniglia per bilico (X52) laccata bianco

**Piana corridor pivot door 1**  
\_White painted (RAL 9010) aluminium flush door jambs  
\_White painted aluminium frame (RAL 9010)  
\_Neutral glass door (D1-10)  
\_White lacquered pivot door handle

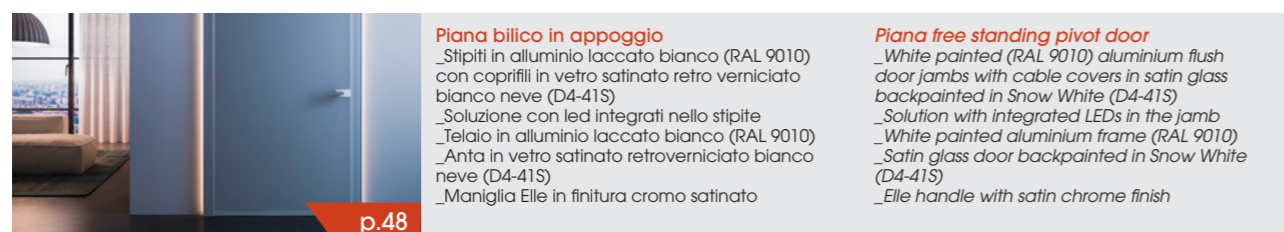

p.44

**Piana bilico corridoio 2**  
\_Stipiti interno muro in alluminio laccato bianco (RAL 9010)  
\_Telaio in alluminio laccato bianco (RAL 9010)  
\_Anta su una faccia in vetro lucido retro verniciato bianco neve (D3-41), sull'altra faccia specchio (D5-40)  
\_Maniglia per bilico (X52) laccata bianco

**Piana corridor pivot door 2**  
\_White painted (RAL 9010) aluminium flush door jambs  
\_White painted (RAL 9010) aluminium frame  
\_One side of the door in crystal clear glass, backpainted in Snow White (D3-41), mirrored on the other side (D5-40)  
\_White lacquered pivot door handle (X52)

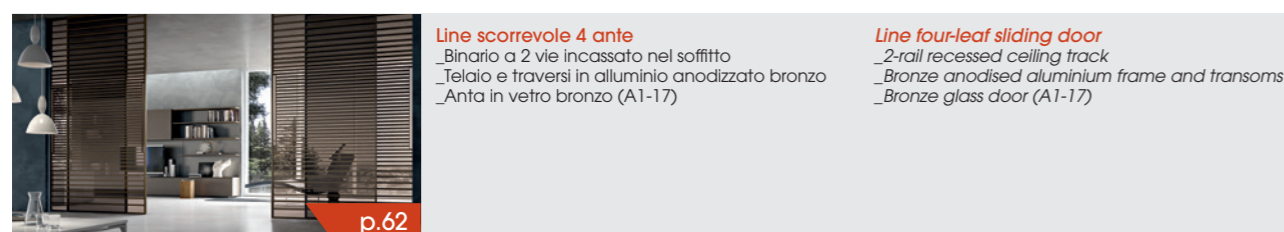

p.46

**Piana bilico in appoggio**  
\_Stipiti in alluminio laccato bianco (RAL 9010) con coprifili in vetro satinato retro verniciato bianco neve (D4-41S)  
\_Soluzione con led integrati nello stipite  
\_Telaio in alluminio laccato bianco (RAL 9010)  
\_Anta in vetro satinato retro verniciato bianco neve (D4-41S)  
\_Maniglia Elle in finitura cromo satinato

**Piana free standing pivot door**  
\_White painted (RAL 9010) aluminium flush door jambs with cable covers in satin glass backpainted in Snow White (D4-41S)  
\_Solution with integrated LEDs in the jamb  
\_White painted aluminium frame (RAL 9010)  
\_Satin glass door backpainted in Snow White (D4-41S)  
\_Elle handle with satin chrome finish

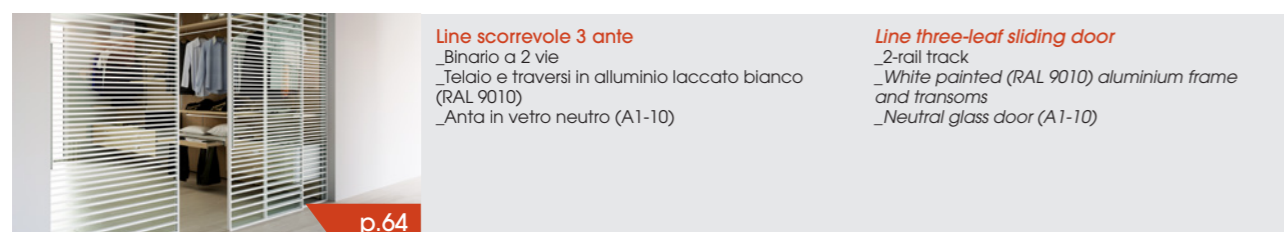

p.48

**Line scorrevole 4 ante**  
\_Binario a 2 vie incassato nel soffitto  
\_Telaio e traversi in alluminio anodizzato bronzo  
\_Anta in vetro bronzo (A1-17)

**Line four-leaf sliding door**  
\_2-rail recessed ceiling track  
\_Bronze anodised aluminium frame and transoms  
\_Bronze glass door (A1-17)

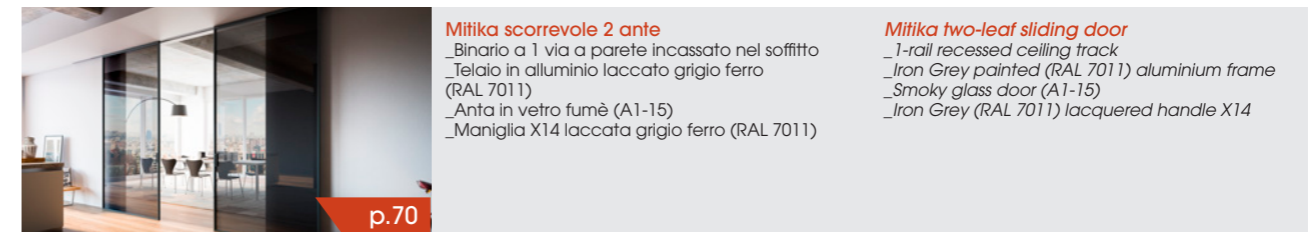

p.62

**Line scorrevole 3 ante**  
\_Binario a 2 vie  
\_Telaio e traversi in alluminio laccato bianco (RAL 9010)  
\_Anta in vetro neutro (A1-10)

**Line three-leaf sliding door**  
\_2-rail track  
\_White painted (RAL 9010) aluminium frame and transoms  
\_Neutral glass door (A1-10)

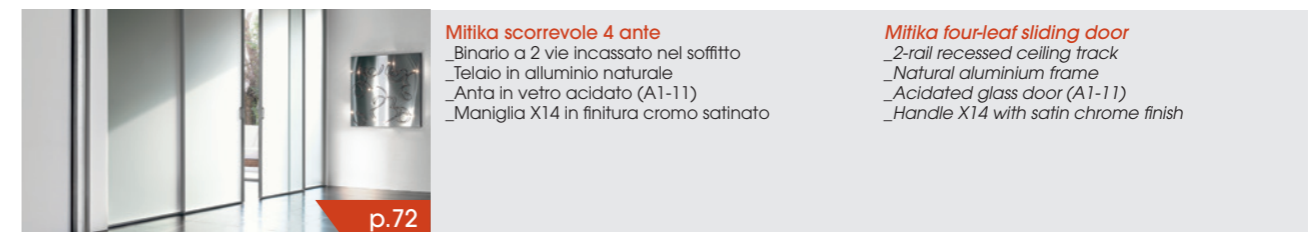

p.64

**Mitika scorrevole 2 ante**  
\_Binario a 1 via a parete incassato nel soffitto  
\_Telaio in alluminio laccato grigio ferro (RAL 7011)  
\_Anta in vetro fumè (A1-15)  
\_Maniglia X14 laccata grigio ferro (RAL 7011)

**Mitika two-leaf sliding door**  
\_1-rail recessed ceiling track  
\_Iron Grey painted (RAL 7011) aluminium frame  
\_Smoky glass door (A1-15)  
\_Iron Grey (RAL 7011) lacquered handle X14

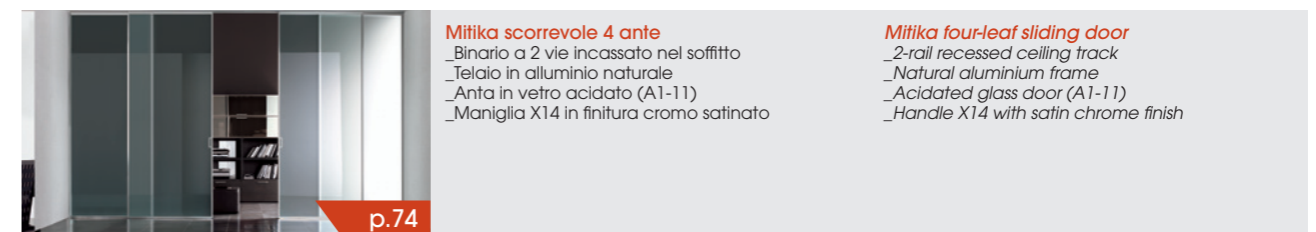

p.70

**Mitika scorrevole 4 ante**  
\_Binario a 2 vie incassato nel soffitto  
\_Telaio in alluminio naturale  
\_Anta in vetro acidato (A1-11)  
\_Maniglia X14 in finitura cromo satinato

**Mitika four-leaf sliding door**  
\_2-rail recessed ceiling track  
\_Natural aluminium frame  
\_Acidated glass door (A1-11)  
\_Handle X14 with satin chrome finish

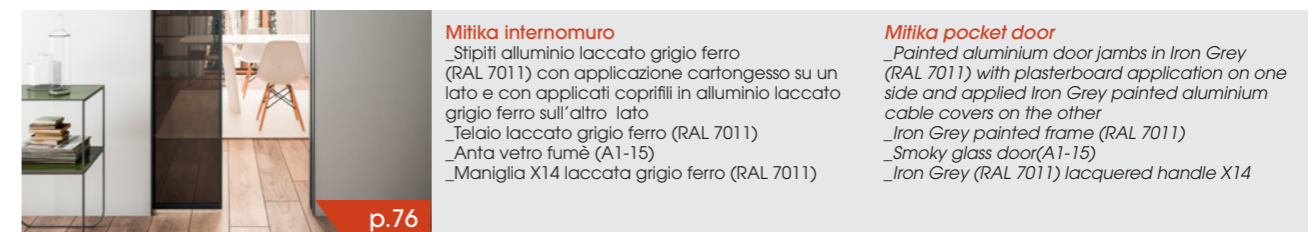

p.72

**Mitika scorrevole 4 ante**  
\_Binario a 2 vie incassato nel soffitto  
\_Telaio in alluminio naturale  
\_Anta in vetro acidato (A1-11)  
\_Maniglia X14 in finitura cromo satinato

**Mitika four-leaf sliding door**  
\_2-rail recessed ceiling track  
\_Natural aluminium frame  
\_Acidated glass door (A1-11)  
\_Handle X14 with satin chrome finish

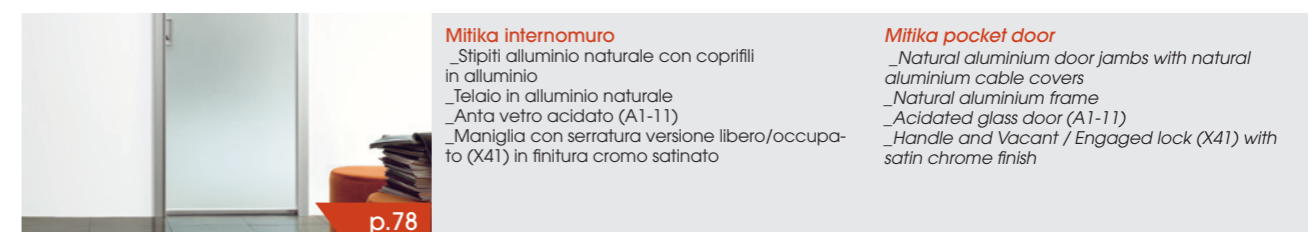

p.74

**Mitika internomuro**  
\_Stipiti alluminio laccato grigio ferro (RAL 7011) con applicazione cartongesso su un lato e con applicati coprifili in alluminio laccato grigio ferro sull'altro lato  
\_Telaio laccato grigio ferro (RAL 7011)  
\_Anta vetro fumè (A1-15)  
\_Maniglia X14 laccata grigio ferro (RAL 7011)

**Mitika pocket door**  
\_Painted aluminium door jambs in Iron Grey (RAL 7011) with plasterboard application on one side and applied Iron Grey painted aluminium cable covers on the other  
\_Iron Grey painted frame (RAL 7011)  
\_Smoky glass door (A1-15)  
\_Iron Grey (RAL 7011) lacquered handle X14

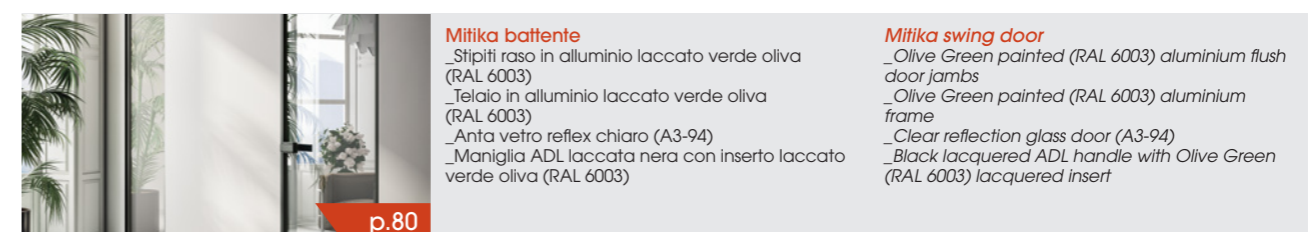

p.76

**Mitika internomuro**  
\_Stipiti alluminio naturale con coprifili in alluminio  
\_Telaio in alluminio naturale  
\_Anta vetro acidato (A1-11)  
\_Maniglia con serratura versione libero/occupato (X41) in finitura cromo satinato

**Mitika pocket door**  
\_Natural aluminium door jambs with natural aluminium cable covers  
\_Natural aluminium frame  
\_Acidated glass door (A1-11)  
\_Handle and Vacant / Engaged lock (X41) with satin chrome finish

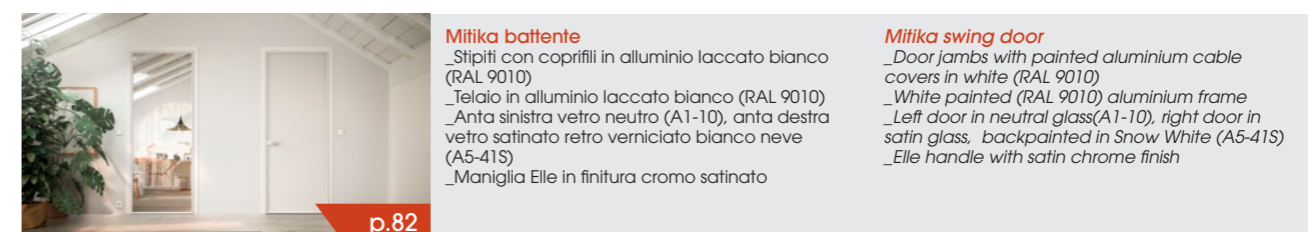

p.78

**Mitika battente**  
\_Stipiti raso in alluminio laccato verde oliva (RAL 6003)  
\_Telaio in alluminio laccato verde oliva (RAL 6003)  
\_Anta vetro reflex chiaro (A3-94)  
\_Maniglia ADL laccata nera con inserto laccato verde oliva (RAL 6003)

**Mitika swing door**  
\_Olive Green painted (RAL 6003) aluminium flush door jambs  
\_Olive Green painted (RAL 6003) aluminium frame  
\_Clear reflection glass door (A3-94)  
\_Black lacquered ADL handle with Olive Green (RAL 6003) lacquered insert

p.80

**Mitika battente**  
\_Stipiti con coprifili in alluminio laccato bianco (RAL 9010)  
\_Telaio in alluminio laccato bianco (RAL 9010)  
\_Anta sinistra vetro neutro (A1-10), anta destra vetro satinato retro verniciato bianco neve (A5-41S)  
\_Maniglia Elle in finitura cromo satinato

**Mitika swing door**  
\_Door jambs with painted aluminium cable covers in white (RAL 9010)  
\_White painted (RAL 9010) aluminium frame  
\_Left door in neutral glass (A1-10), right door in satin glass, backpainted in Snow White (A5-41S)  
\_Elle handle with satin chrome finish

p.82

**Mitika battente**

\_Stipiti con coprifili in alluminio naturale  
\_Telaio in alluminio naturale  
\_Anta in vetro lucido retro verniciato nero (A4-48)  
\_Maniglia ADL in finitura cromo satinato con inserto in vetrolucido retro verniciato nero (A4-48)

p.84

**Mitika swing door**

\_Door jambs with natural aluminium cable covers  
\_Natural aluminium frame  
\_Crystal clear glass leaf door backpainted in Black (A4-48)  
\_ADL handle with satin chrome finish and crystal clear glass insert backpainted in Black (A4-48)

**Mitika battente corridoio 1**

\_Stipiti esterno muro con coprifili in alluminio naturale  
\_Telaio in alluminio naturale  
\_Anta in vetro acidato (A1-11)  
\_Maniglia ADL in finitura cromo satinato con inserto in specchio acidato (50)

p.86

**Mitika corridor swing door 1**

\_Door jambs with natural aluminium cable covers  
\_Natural aluminium frame  
\_Acidated glass door(A1-11)  
\_ADL handle with satin chrome finish and acidated mirror insert (50)

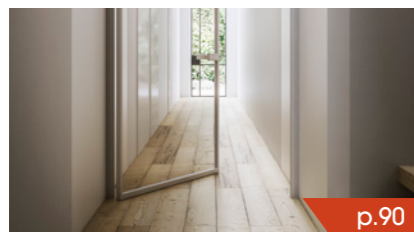

**Mitika battente doppia corridoio 1**

\_Stipiti 2 lati esterno muro in alluminio  
\_Telaio in alluminio naturale  
\_Anta in vetro neutro (A1-10)  
\_Maniglia Zelda in finitura cromo satinato

p.88

**Mitika double corridor swing doors 1**

\_Door jambs with natural aluminium cable covers  
\_Natural aluminium frame  
\_Neutral glass door (A1-10)  
\_Zelda handle with satin chrome finish

**Mitika bilico corridoio 1**

\_Stipiti 2 lati esterno muro in alluminio laccato bianco (RAL 9010)  
\_Telaio in alluminio laccato bianco (RAL 9010)  
\_Anta in vetro neutro extrachiaro (A2-20)  
\_Maniglia ADL laccata bianco (RAL 9010) con inserto in vetro satinato retro verniciato bianco neve (415)

p.90

**Mitika corridor pivot door 1**

\_Two-sided door jambs in White painted (RAL 9010) aluminium  
\_White painted (RAL 9010) aluminium frame  
\_Extra-clear neutral glass door (A2-20)  
\_White lacquered (RAL 9010) ADL handle with satin glass insert, backpainted in Snow White (415)

**Filomuro Style**

\_Stipiti forniti con fondo e successivamente trattati con pittura murale uguale alla parete  
\_Telaio in alluminio naturale  
\_Anta in vetro neutro (D1-10)  
\_Maniglia Zelda in finitura cromo satinato

p.104

**Filomuro Style**

\_Door jambs provided with sill and subsequently treated with the same paint as that on the walls  
\_Natural aluminium frame  
\_Neutral glass door (D1-10)  
\_Zelda handle with satin chrome finish

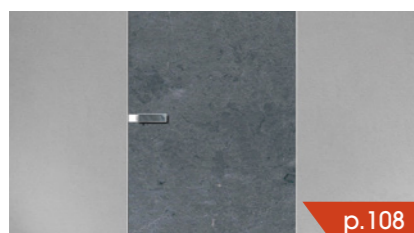

**Filomuro Style**

\_Stipiti forniti con fondo e successivamente trattati con pittura murale  
\_Telaio in alluminio naturale  
\_Anta di sinistra gres porcellanato (TREDI-ZINCO) con continuità sulla parete, anta destra specchio (D5-40)

p.106

**Filomuro Style**

\_Door jambs provided with sill and subsequently treated with wall paint  
\_Natural aluminium frame  
\_Left door in fine porcelain stoneware (TREDI-ZINCO) continuing on walls, right mirrored door (D5-40)

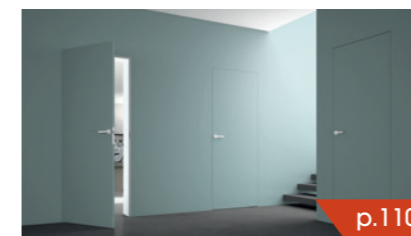

**Filomuro Style**

\_Stipiti forniti con fondo e successivamente trattati con pittura murale uguale alla parete  
\_Telaio in alluminio naturale  
\_Anta in pietra lavagna  
\_Maniglia ADL in finitura cromo satinato con inserto in pietra lavagna

p.108

**Filomuro Style**

\_Door jambs provided with sill and subsequently treated with the same paint as that on the walls  
\_Natural aluminium frame  
\_Slate door  
\_ADL Handle with satin chrome finish and slate insert

**Filomuro Zero**

\_Stipiti e pannello porta forniti con fondo e successivamente trattati con pittura uguale alle pareti

p.110

**Filomuro Zero**

\_Door jambs and door leaf provided with sill and subsequently treated with the same paint as that on the walls

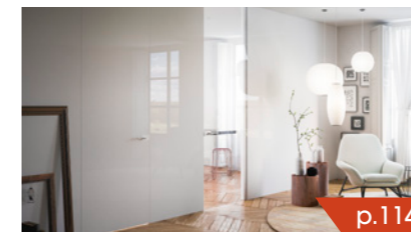

**Filomuro Zero**

\_Stipiti e pannello porta forniti con fondo e successivamente trattati con pittura uguale alle pareti

p.112

**Filomuro Zero**

\_Door jambs and door leaf provided with sill and subsequently treated with the same paint as that on the walls

**Filomuro light**

\_Door jambs with natural aluminium cable covers e successivamente trattati con pittura murale uguale alla parete  
\_Anta sinistra in vetro lucido retro verniciato bianco neve (B4-41) in continuità con la parete, anta destra in vetro neutro (B1-10)  
\_Maniglia Zelda in finitura cromo satinato

p.114

**Filomuro light**

\_Door jambs provided with sill and subsequently treated with the same paint as that on the walls  
\_Left door in crystal clear glass, backpainted in Snow White (B4-41) continuing on the walls, right door in neutral glass (B1-10)  
\_Zelda handle with satin chrome finish

**Filomuro light**

\_Stipiti forniti con fondo e successivamente trattati con pittura murale uguale alla parete  
\_Anta in vetro bronzo acidato (B2-18) fronte opaco  
\_Maniglia Zelda in finitura cromo satinato

p.116

**Filomuro light**

\_Door jambs provided with sill and subsequently treated with the same paint as that on the walls  
\_Bronze acidated glass door (B2-18) with frosted glass front  
\_Zelda handle with satin chrome finish

**Filomuro light**

\_Stipiti forniti con fondo e successivamente trattati con pittura murale uguale alla parete  
\_Anta in vetro lucido retro verniciato tortora (B4-42)  
\_Maniglia Zelda in finitura cromo satinato

p.118

**Filomuro light**

\_Door jambs provided with sill and subsequently treated with the same paint as that on the walls  
\_Crystal clear glass leaf door backpainted in Dove Grey (B4-42)  
\_Zelda handle with satin chrome finish

**Light scorrevole 2 ante**

\_Binario a 1 via a parete incassato nel soffitto  
\_Anta in vetro sabbato retro verniciato sabbia (B3-31)  
\_Traverso superiore in alluminio naturale  
\_Maniglia X61 cromo

p.126

**Light two-leaf sliding door**

\_1-rail recessed ceiling track  
\_Sanded glass door backpainted in Sand (B3-31)  
\_Top transoms in natural aluminium  
\_Chrome handle X61

**Light scorrevole 2 ante**

\_Binario a 2 vie incassato nel soffitto  
\_Anta in vetro bronzo acidato (B2-18)  
\_Traverso superiore in alluminio naturale  
\_Maniglia X61 cromo

p.128

**Light two-leaf sliding door**

\_2-rail recessed ceiling track  
\_Bronze acidated glass door (B2-18)  
\_Top transoms in natural aluminium  
\_Chrome handle X61

**Light trascinato sincronizzato**  
 \_3+3 ante ripetute 2 volte  
 \_Binario incassato nel soffitto  
 \_Anta in vetro sp.10mm fumè (C1-15)  
 \_Maniglia X61 nera

**Light synchronised sliding door**  
 \_3+3 doors repeated twice  
 \_Recessed ceiling track  
 \_Smoky glass door with 10mm thickness (C1-15)  
 \_Black handle X61

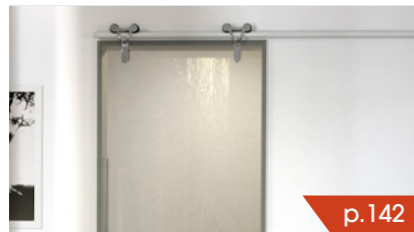

p.130

**Light internomuro**  
 \_Stipiti e coprifili in alluminio naturale  
 \_Anta in vetro bronzo (B1-17)  
 \_Maniglia X60 cromo

**Light pocket door**  
 \_Natural aluminium door jambs and cable covers  
 \_Bronze glass door (B1-17)  
 \_Chrome handle X60

p.132

**Logika scorrevole**  
 \_Binario a parete in alluminio laccato bianco (RAL 9010).  
 \_Anta in vetro extrachiaro stratificato con tessuto Lino Y565  
 \_Carrelli in pressofusione cromati  
 \_Maniglia X61 cromo

**Logika sliding door**  
 \_White painted aluminium wall mount tracks (RAL 9010).  
 \_Clear glass layered door with fabric Lino Y565  
 \_Die cast chrome carriages  
 \_Chrome handle X61

p.142

**Logika scorrevole**  
 \_Binario a parete in alluminio anodizzato cromo  
 \_Carrelli in pressofusione cromati  
 \_Anta in vetro lucido retro verniciato nero (B4-48)  
 \_Maniglia X60 cromo

**Logika sliding door**  
 \_Chrome anodised aluminium wall mount tracks  
 \_Die cast chrome carriages  
 \_Crystal clear glass leaf door backpainted in Black (B4-48)  
 \_Chrome handle X60

p.144

**Logika scorrevole**  
 \_Binario a parete in alluminio anodizzato cromo  
 \_Carrelli in pressofusione cromati  
 \_Anta in vetro sabbato retro verniciato oceano (B3-32)  
 \_Maniglia X60 cromo

**Logika sliding door**  
 \_Chrome anodised aluminium wall mount tracks  
 \_Die cast chrome carriages  
 \_Sanded glass door backpainted in Sea Blue (B3-32)  
 \_Chrome handle X60

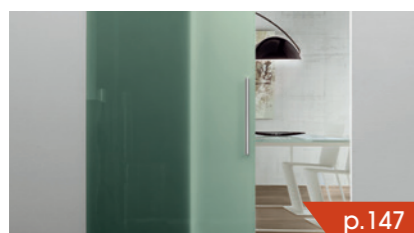

p.146

**Logika scorrevole**  
 \_Binario a parete in alluminio anodizzato cromo  
 \_Carrelli in pressofusione cromati  
 \_Anta in vetro sabbato retro verniciato argilla (B3-30)  
 \_Maniglia X60 cromo

**Logika sliding door**  
 \_Chrome anodised aluminium wall mount tracks  
 \_Die cast chrome carriages  
 \_Sanded glass door backpainted in Terracotta (B3-30)  
 \_Chrome handle X60

p.147

**Logika scorrevole**  
 \_Binario a parete in alluminio anodizzato cromo  
 \_Carrelli in pressofusione cromati  
 \_Anta in vetro sabbato retro verniciato laguna (B3-33)  
 \_Maniglia X60 cromo

**Logika sliding door**  
 \_Chrome anodised aluminium wall mount tracks  
 \_Die cast chrome carriages  
 \_Sanded glass door backpainted in Lagoon (B3-33)  
 \_Chrome handle X60
